INNOVATION, AUTONOMOUS VEHICLES AND PURPOSE

From surfing the beaches of California to designing Mobileye's System on a Chip, powering the autonomous vehicle revolution, Mois Navon charts a course driven by passion and purpose, bringing inspiration to people of all walks of life.

BIO Mois Navon is one of the founding engineers of Mobileye, where he designed the EyeQ family of SoC (System On a Chip) - the chip powering the autonomous vehicle revolution. He is the author of numerous hardware patents in the field of image processing and computing hardware. Prior to Mobileye, Mois worked for notable companies such as IBM and NASA's JPL, as well as a number of Israeli Start-Ups.

Definitely the best speech of the trip.

Great! Epic! Inspiring Superb!
 Everyone loved it!
 Simply Genius The guy was super interesting sooo cool
 both for what he said and how he said it
 the best talk Eye-opening I am deeply touched and inspired
 amazing session
 the delegation was really thrilled loved your talk
 highlight of the trip brilliant and entertaining
 Great speaker! amazing talk window to the future!
 One of the most impactful parts of the visit to Israel.
